

NARENDRA

Java Full Stack Developer | Software Engineer

narendra.kumarvg2@gmail.com | +91-7880916985 | LinkedIn | GitHub

Professional Summary

Software Engineer with 1+ years of professional experience building backend and full-stack applications, with hands-on experience in Java, Spring Boot, REST APIs, React, SQL, and relational databases. Experienced in developing scalable web applications, implementing authentication and authorization, designing RESTful APIs, optimizing database operations, writing automated tests, and containerizing applications with Docker. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, SOLID principles, and backend system design.

Technical Skills

Languages	Java, JavaScript, TypeScript, SQL, C++, C#
Backend	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices
Frontend	React.js, HTML5, CSS3
Databases	PostgreSQL, MySQL, MongoDB, Redis
Testing	JUnit 5, Mockito, Postman
DevOps	Docker, Git, GitHub Actions, CI/CD, AWS
Core Concepts	OOP, SOLID, DSA, JWT, OAuth2, System Design

Professional Experience

Hexaware Technologies	Mar 2025 – Present
Associate Software Engineer	India
- Developed and maintained enterprise backend applications using Java, Spring Boot, REST APIs, and PostgreSQL following layered architecture and SOLID principles. - Designed and implemented RESTful APIs using Spring Boot with clear separation of Controller, Service, and Repository layers. - Implemented authentication and role-based authorization using Spring Security and JWT for secured API access. - Integrated backend APIs with React.js frontend applications and collaborated with cross-functional teams to deliver production-ready features. - Developed unit and integration tests using JUnit and Mockito and containerized applications using Docker.	

Projects

CDS – Enterprise Application	Java Spring Boot PostgreSQL React Docker
Enterprise Full-Stack Application	
- Developed REST APIs using layered Spring Boot architecture with PostgreSQL persistence using JPA/Hibernate. - Implemented authentication and authorization using Spring Security and JWT. - Developed automated tests using JUnit 5 and Mockito and containerized services using Docker.	
OfferPilot – Offer Management Platform	Java Spring Boot PostgreSQL React Redis Docker
Full-Stack Personal Project	
- Built a full-stack platform for managing and tracking job offers and compensation data. - Developed RESTful APIs with validation, pagination, filtering, and global exception handling. - Implemented Redis caching, JWT authentication, and Docker-based containerization.	
Career Crafter – Job Portal	ASP.NET Core React.js MS SQL Server
Full-Stack Application	
- Built a full-stack job portal with secure authentication, role-based access control, and resume management. - Developed REST APIs using ASP.NET Core and integrated them with React.js frontend applications.	

Education

Vellore Institute of Technology, Vellore	2020 – 2024
B.Tech in Electronics and Communication Engineering	
VidyaGyan School, Sitapur	2019 – 2020
Class XII – PCM + Fine Arts	95.2%

Achievements

- Innovative Champion Award – Hexaware Technologies** for contribution to innovation and technology initiatives.
- Awarded **100% tuition scholarship** by Shiv Nadar Foundation.
